

Quality of Care Program Mortality Review: Progress to Date

December 3, 2019

What's Happened So Far?

- **March 2017:** Presentations at QAC on mortality data from NYC and NYS and on mortality review from Dr. Steve Johnson (University of Colorado Denver) and Dr. Sandy Schwarcz (UCSF)
- **April 2017:** Formation of Mortality Subcommittee
- **April - August 2017:** Meeting of mortality subcommittee (and subgroups of subcommittee) focused on adapting the CoDe tool

What's Happened So Far?

- **September 2017:** Presentation of adapted CoDe tool at QAC. Feedback given by members.
- **September 2017- March 2018:** Revision of CoDe tool based on feedback and further discussions with subcommittee co-chairs.
- **March 2018:** Presentation of revisions to adapted CoDe tool at QAC meeting

What's Next?

- At AI: Review of administrative data sets to identify number of AIDS-related deaths in 2017
- Mortality review using the adapted CoDe on hold
 - Tool can be used by individual programs for their own internal quality reviews
 - AI led review will be revisited when there is new staff
