

### Slide 1 – Overview

#### Information about QI Team

- Facility Name
- Agency RWHAP Part Funding
- Location
- Team members' first and last names
- Number of sites with # of patients in caseload

Your  
Organization  
Logo

Poster Title (this is different from the QI Headline below)  
Organization name  
Author name(s), and contact information for at least one (1) author

### Slide 9 – Spread and Sustainability

- How do you plan to sustain your gains to maximize your reach and impact on the community you serve?
- Share proven change ideas to continue with project and add interventions to meet aim statement.

### Slide 2 – Background

- What services do you provide for PWH?
- What locations do you serve?
- Which communities do you serve?

## Slide 12 – “Headline” including your Results

#### Central Slide Placement

Top of poster with slide panels below  
Center of poster with side panels

#### Tips:

**Grab people’s attention!**

**What is your key finding(s)?**

•Write it down.

•Edit it for plain language.

•Highlight words that you want to emphasize.

### Slide 10 – Engagement of Staff & PWH

- List how you engage staff in your work. How do you acknowledge their contributions and value their presence?
- List how you engage PWH in your work. How do you acknowledge their contributions and value their presence?

### Slide 3 – Performance Measurement

- Insert your caseload # and viral load suppressions rates
- Please enter your performance data
- Use a table, bar chart, or any format you wish to show your data
- Share any qualitative findings or changes over time

### Slide 5 – AIM Statement

- List your Aim Statement, including the problem statement and measurable goals
- Include a driver diagram, if available and helpful
- Share how you have engaged stakeholder and people with HIV to reach your improvement aim

### Slide 6 – Root Causes

- Describe which tools (e.g., cause/effect diagram, driver diagram) or other assessment methods (e.g., needs assessment survey, focus group) you used to identify contributing factors
- Display the completed tool or any available data
- Share how you have involved consumers in identifying the root causes

### Slide 11 - Lessons Learned

- Share your lessons learned based on your current improvement efforts
- Share what wanted to know before you got started
- What can others learn from you?

### Slide 4 - System Challenge (Selection of One of the Four Goals stated in your QI project)

Check your sharing group presentation for the goal you selected.

#### Example:

- Increase health equity by focusing on key HIV populations disproportionately impacted by the HIV epidemic in New York State and reduce the gap in key outcome measures.

### Slide 7 – Selection of Interventions

- Analyze and Prioritize Interventions
- Identify tool(s) used

### Slide 8 – Intervention & Change Ideas

- List selected interventions, rationale for selecting them, and results
- Elaborate any changes you made to the interventions as described in the Toolkit
- Share what interventions or change ideas you plan to test in the future

### Free-form Personalization Section

Have some fun here! Show creativity and celebrate your work together.
